**WE UNDERSALE ALL OTHERS**

Hundreds of good Values, not room to mention here.

**The Bass Furniture & Carpet Co.****ASQUITH ILLNESS ACTS AS A BALM**

In England Political Heat Is Allayed by Absence for Few Days of Premier

LONDON, Oct. 20.—Premier Asquith's illness has produced a greater calm in political circles than otherwise would have attended the resignation of Sir Edward Carson, the attorney general. From present appearances there will be no more resignations from the cabinet.

It is likely Premier Asquith's absence will be extended to nine or ten days. This enforced cessation of political passions is expected to give time for the reconciliation of the differences. It seems that Sir Edward Carson had intended to make public

a statement Tuesday, but the premier's illness resulted in Sir Edward deciding to postpone it until Mr. Asquith's return to the house of commons.

**Press Opinion**

There are many conflicting statements current concerning the real reason for Sir Edward's resignation. The Daily Mail affirms it had nothing to do with the question of compulsory service. The Chronicle is firmly convinced, it says, that it was because of the cabinet's needless delays in arriving at a decision in favor of compulsory service. The Times says his resignation was more directly concerned with the eastern war than with recruiting and aids.

"Sir Edward Carson always has held strong views on the need of energy and forthrightness in meeting the German menace in the Balkans," \* \* \* If he goes alone it is probably due to the fact that there is room for honest doubt and difference as to the actual course to be followed. When Sir Edward Carson comes to define his position he will have to do so in a clear and definite manner.

SHAWNEE, Oct. 20.—Scarlet fever, in a mild form, is prevalent throughout Pottawatomie county, according to a report made Tuesday by Dr. J. H. Scott, county health officer.

## THE OKLAHOMA TIMES

**MANY DESTITUTE WIDOWS HELPED**

Twenty-Nine Heads of Little Families Given Pension By Court

**ONLY ONE DISSATISFIED**

Heroism, Self-Denial Struggling Pride Are Reflected During Examinations

WHEN County Judge Zwick heard a long sigh Tuesday evening at five o'clock, 29 of the county's widows had been granted pensions, and the applications of something over 40 had been heard. The aggregate amount of the pensions granted to these women will amount to \$248 a month, or would, if more were not to be granted, amount to \$222 for the fiscal year. Eight thousand dollars had been appropriated by the county commissioners for their relief work.

Of those who applied and were granted pensions, the lowest amount to be given was \$4 a month. The woman receiving this had other means which were almost sufficient to keep herself and her one child going, but needed just a little help. The highest amounts to be paid were \$15 in two cases. One of the women to whom this amount was given had seven children dependent upon her and the other nine. Between these two extremes ranged the rest of the allowances to women with from one to ten children dependent solely upon their mother's efforts.

**Only One Dissatisfied**

Judge Zwick reported that all of the women were satisfied and grateful, with one single exception. This woman, according to the judge, was granted \$6 a month, and seemed to be very indignant because he had not received more. She barely came within the provisions of the act, and while she had to work hard, her income was almost sufficient to meet her needs and her condition was not better than many of the applicants who were grateful to the point of tears for the aid extended them.

"I have found this to be a wonderfully interesting work," said Judge Zwick in a moment of leisure Tuesday. "Most of these unfortunate women had a hard struggle with God before bringing themselves to apply for pensions, and after they were here, it has been almost impossible to find out their true condition, owing to their hesitancy to expose their helplessness. In many cases, the poor creatures burst into tears after we had given them the meager amount which we were able to, and assured us that the amount, small though it may have been, would prove to be a lifesaver for themselves and children.

**Misplaced Philanthropy**

"Incidents showing the perversity of human nature have been frequent. For instance one woman, whose husband had died on the fifteenth of this month, came to me today. Her husband had had an income of but \$20 a week and had been a sufferer from tuberculosis which caused his death, yet notwithstanding this, his mother waited, when she died, \$1000 to a widow to seek money for her departed son and for her invalid son off with \$1. The result was that the magistrate had to pay the funeral expenses and the widow had to apply to us for help."

**True Heroism**

Away from me are the incidents showing the wonderful courage and fortitude of these unfortunate. This afternoon I received a letter which I want to read." The letter is as follows:

"Mr. Zwick: Dear Sir—I received your letter (Judge Zwick writes such of the applicants personal to explain the law to them) and am sorry to say that I am sick, having had colds for a week or more, one chill every day since Monday. You go on and give preference to the most needy mothers, not little children and as long as I can work and support my two children, I am willing to, and if I can't do it, work, then I will go for help. Give all the rest fresh, and then if you have any left, I will come down and tell me children and witnesses, and you can be the judge, to give help at once. I can say this truly: I make my own living and my children and pay all the doctor bills and suffice them myself. No one does anything for me, my folks work for themselves, and they keep what they make. I think you very much for writing me and with best wishes for your future success. I remain your true friend,
